A

Accelerated testing of farm machinery..	154
Adrian, P. A.	
Some aspects of vibratory fruit harvesting	28
Aeromobile: a peripheral jet vehicle, The	290
Agricultural applications of the dual-monochromator spectrophotometer	432
AGRICULTURAL ENGINEERING	
(Agricultural Engineers)	
Opportunity in 1960	19
Changes in education in relation to agricultural engineering	153
"Engineer" and EJC	225
Life sciences and engineering: their interrelationships	289
Conference features confinement housing of livestock	365
Extending our horizons	427
Have you seen the movie	501
About the farmstead engineering conference	565
Power to produce	681
Career promotion report	745
Constitutional changes	801
Agricultural engineering, Changes in education in relation to	153
Agricultural engineering college training survey	103
Agricultural engineering, Need for graduate study in	813
Agricultural engineering phases of teacher education in agriculture (Report III—pre-service and in-service education programs)	382
Air conditioning and ventilating dairy-cattle structures, Design factors for	GT 57
Air flows, resistance of shelled corn and wheat to low	GT 92
AIR-MOVEMENT MEASUREMENTS	
Relations between air and solid particles moving upward in a vertical pipe	168
Alaska agriculture, Engineering in	241
Alley, H. P.	
Equipment for metering, distributing and mixing granular herbicides into bands	GT 108
Altman, L. B.	
Demand studies in farm electric service	237
AMERICAN SOCIETY OF AGRICULTURAL ENGINEERS	
ASAE winter meeting council action	85
Have you seen the movie?	501
ASAE annual meeting council action	701
Career promotion report	745
Constitutional changes	801
Amerman, C. R.	
Evaluating effect of land use on stream flow	158
Ammonia equipment, Engineering safe	GT 66
Analysis of forage flow in a deflector elbow	234
Analysis of weather data pertinent to grain drying	GT 116
Anchoring vegetative mulches	754
Angus, D. E.	
Large weighing lysimeter for measuring evapotranspiration	GT 13
Animal shelters in the north central states, Evaporative cooling for	816
Apparent densities of dry feed ingredients	593
Applications of fluorocarbon resins in farm equipment	802
Argyriadis, C.	
Criteria for tile drain spacings in artesian areas	SWT 87
Artesian areas, Criteria for tile drain spacings in	SWT 87
Ashby, Wallace	
Heat and moisture design data for poultry housing	567

Ashton, F. M.	
Logarithmic dosage sprayer	436
AWARDS OF HONOR	
John Deere medal, W. V. Hukill	459
Cyrus Hall McCormick medal, F. A. Brooks	458
Cyrus Hall McCormick medal, W. H. Silver	458
MBMA award, G. L. Nelson	459

B

Baled hay and straw, Human energy expended in handling	502
Barber, R. L.	
Electronic temperature controller using thermistor sensing element	106
Barnes, K. K.	
Similitude in studies of tillage implement forces	32
Barre, H. J.	
Livestock-production plant of the future	619
Barrios, Jose	
Effect of horizontal drains and cutoff walls on seepage flow, uplift pressure, and exit gradient under dams	GT 95
Bartels, L. F.	
Hydraulic roughness of a flood-irrigated pasture	SWT 71
Basic requirements of beef cattle housing, feeding and handling	615
Batch grain-drier performance, A new analysis of	GT 81
Bateman, H. P.	
Research studies of minimum tillage	GT 1
Effect of minimum tillage on physical properties of soils and crop response	GT 8
Baumann, E. R.	
Quality and treatment of pond water	SWT 1
Baxter, D. O.	
Poultry houses and equipment for the south	580
Beasley, R. P.	
Canopy inlet for closed conduits	226
Becker, C. F.	
Equipment for metering, distributing and mixing granular herbicides into bands	GT 108
Beef cattle, Effects of thermal environment on	613
Beef cattle housing, feeding and handling, Basic requirements for	615
Beef-producing industry, The changing	611
Beef production, Combining components for economical	617
Beef production, Mechanizing large-scale	90
Bell, Wilson B.	
Life sciences and engineering: their interrelationships	289
Bench leveling for surface irrigation and erosion control	SWT 14
Berglund, Nils	
Farm machinery research and testing in Sweden	GT 113
Bertelsen, William R.	
Aeromobile: a peripheral jet vehicle, The	290
Bianchi, W. C.	
Method of obtaining continuous measurements of piezometric heads in shallow artesian aquifers	516
Birth, G. S.	
Agricultural applications of the dual-monochromator spectrophotometer	432
Measuring the smut content of wheat	GT 19
BLOWER, IMPELLER	
Relation between air and solid particles moving upward in a vertical pipe	168
Blower, Influence of particle movement on energy losses in an impeller	92

Bockhop, C. W.	
Similitude in studies of tillage implement forces	32
Border checks, Design of irrigation	439
Bouyoucos, George	
Measuring soil moisture tension	40
Bowers, Wendell	
Research studies of minimum tillage	GT 1
Boyd, J. S.	
Factors affecting hydraulic removal of manure from concrete	22
Effect of temperature on tightness of fences	GT 11
Storage of solar energy, The	GT 102
Boyd, L. L.	
Need for graduate study in agricultural engineering	813
Brail, D. E.	
Molded fiber glass in farm equipment	370
Brakensiek, D. L.	
Evaluating effect of land use on stream flow	158
Braking, Four-wheel tractor	746
Branton, C. Ivan	
Engineering in Alaska agriculture	241
Bridge controls, Modification of	450
Broiler, egg production, Housing design and equipment for economical	578
Brooder control, Radiation-sensitive infrared	756
Brooker, D. B.	
Analysis of weather data pertinent to grain drying	GT 116
Brower, Frank R., Jr.	
Diversion terraces for erosion control and drainage	SWT 73
Buchehe, W. F.	
Drying rate of alfalfa hay	86
Hay-in-a-day harvesting	172
Emergence energy of plant seedlings	428
Centrifugal threshing of small grain	GT 24
Buie, Eugene C.	
Watershed planning	104
Buildings engineered to farm needs	752
Bulk curing of bright leaf tobacco	511
Buras, Nathan	
Wetting expansion of draintile and its effects on water entry	SWT 88
Butler, Karl D.	
USA and USSR farm mechanization—a comparison	760
Byerly, T. C.	
Goals of engineering research on poultry housing	566

C

Campbell, L. E.	
Experiments with controlled light intensity for turkeys	GT 45
Canning industry's need of precision agricultural equipment, The	GT 99
Canopy inlet for closed conduits	226
Capital requirements of engineered farmsteads	628
Carmichael, Ernest F.	
A method for determining detention storage for floodwater-retarding structures	GT 29
Carter, L. M.	
Evaluating flame-burner design for weed control in cotton	GT 125
Cattail and other vegetation in drainage ditches, Control of	SWT 66
Centrifugal threshing of small grains	GT 24
Chamberlain, A. R.	
Trapezoidal flumes for open-channel flow measurement	GT 120
Chancellor, William J.	
Influence of particle movement on energy losses in an impeller blower	92
Relations between air and solid particles moving upward in a vertical pipe	168

Analysis of forage flow in a deflector elbow	234
Changing beef-producing industry, The	611
Chority, L. F.	
Demand studies in farm electric service	237
Chepil, W. S.	
Anchoring vegetative mulches	754
Citrus fruit harvesting, Mechanizing	GT 130
Clayton, J. T.	
Combining dairy farmstead components for economical operation	603
Cleaver, Thayer	
Pie-shape design for dairy corral layouts	608
Colwick, R. F.	
Evaluating flame-burner design for weed control in cotton	GT 125
Combining components for economical beef production	617
Combining dairy farmstead components for economical operation	603
COMPACTION, SOIL	
Stress distribution in soils under tractor loads	20
Confinement housing of dairy cows	598
Confinement housing of swine	591
Conservation engineering outside the USA, Soil and water	SWT 42
Conservation, Minimum tillage for soil and water	96
Consulting agricultural engineers	103
Consumptive use of water to climate, Relation of	SWT 9
Control of cattail and other vegetation in drainage ditches	SWT 66
Controlled light intensity for turkeys, Experiments with	GT 45
Cooling by means of cold plates, Radiation	GT 49
Cooling, Forced-air fruit	GT 16
Cooling of dairy cattle, Radiation	GT 52
Cooper, A. W.	
Stress distribution in soils under tractor loads	20
Coppock, G. E.	
Mechanizing citrus fruit harvesting	GT 130
Corn on clay soils, Tillage treatment for	GT 4
Corn, Silo storage of high-moisture shelled	296
Costel, G. L.	
Equipment for metering, Distributing and mixing granular herbicides into bands	GT 108
Costs and benefits of engineered farmsteads	622
Criteria for the choice of irrigation method	SWT 92
Criteria for tile drain spacings in artesian areas	SWT 87
Culp, Melvin M.	
Two-stage reservoir inlets	506
Some notes on drainage structures	SWT 90
Curing of bright leaf tobacco, Bulk	511
Curry, Norval H.	
Combining components for economical beef production	617
Cutler, W. A.	
Control of cattail and other vegetation in drainage ditches	SWT 66
Cutoff walls on seepage flow, uplift pressure, and exit gradient under dams, Effect of horizontal drains and	GT 95

D

Dairy-cattle structures, Design factors for air conditioning and ventilating	GT 57
Dairy corral layouts, Pie-shaped design for	608
Dairy cows, Confinement housing of	598
Dairy cows, Physical environment and confinement housing of	596

Dairy farmstead components for economical operation, Combining	603
Dairying, Helter-skelter	594
Dale, A. C.	
Evaporative cooling for animal shelters in the north central states	816
Dams, Effect of horizontal drains and cutoff walls on seepage flow, uplift pressure, and exit gradient under	GT 95
Darlow, Albert E.	
Changing beef-producing industry, The	611
Davis, C. P., Jr.	
Experiments with controlled light intensity for turkeys	GT 45
Nomograph for comparing home heating costs	GT 129
Davis, V. W.	
Costs and benefits of engineered farmsteads	622
Decker, Martin	
Unloading silos mechanically	378
Deflector elbow, Analysis of forage flow in a	234
Demand studies in farm electric service	237
Design analysis for poultry-house ventilation	576
Design data from fatigue testing of springs	GT 68
Design factors for air conditioning and ventilating dairy-cattle structures	GT 57
Design factors in a spring-trip beam assembly for moldboard plows	GT 61
Discussions	63, 64
Design of irrigation border checks	439
Design of irrigation pipe lines for minimum annual cost	SWT 29
Detention storage for floodwater-retarding structures, A method for determining	GT 29
Detection of deeply penetrating rain water with neutron-scattering moisture meter	SWT 5
Development of a mechanical tomato harvester	682
Diversion terraces for erosion control and drainage	SWT 73
Dobie, John B.	
Production of hay wafers	366
Doering, E. J.	
Horizontal irrigation well in a shallow thin aquifer	SWT 52
Dortignac, E. J.	
Relation of plant cover to infiltration and erosion in ponderosa pine forests of Colorado	SWT 58
Drain liners evaluated by pneumatic test chamber, Plastic	824
Drainage ditches, Control of cattail and other vegetation in	SWT 66
Drainage, Diversion terraces for erosion control and	SWT 73
Drainage practice, Land forming—accepted	24
Drainage, Selected bibliography on pump—prepared by ASAE committee on pump drainage	SWT 62
Drainage structures, Some notes on	SWT 90
Drains and cutoff walls on seepage flow, uplift pressure, and exit gradient under dams, Effect of horizontal	GT 95
Drains, Fiberglass as a filter for closed tile	690
Draintile and its effects on water entry, Wetting expansion of	SWT 88
Draintile lines, Effect of crack width at tile joints on soil movement into	SWT 33
Drury, L. N.	
Poultry houses and equipment for the south	580
Drying, Analysis of weather data pertinent to grain	GT 116
Drying rate of alfalfa hay	86

Drying rate of fully exposed grain kernels	GT 71
Dual-monochromator spectrophotometer, Agricultural Applications of the	432
Duke, G. B.	
Mechanized harvesting of Virginia peanut crop	GT 138
Duncan, C. S.	
Thermoelectric cooling and power generation	293
